

Three diagrams illustrating the 'Relative Width' property in CSS. Each diagram shows a row of three boxes with a total width of 300%. The first diagram shows a red box (10%), a red box (20%), and a yellow box (30%). The second diagram shows a green box (10%), a green box (20%), and a yellow box (30%). The third diagram shows a blue box (10%), a blue box (20%), and a yellow box (30%).

MOST of the adventures recorded in this book really occurred; one or two were experiences of my own, the rest those of boys who were schoolmates of mine. Huck

MOST of the adventures recorded in this book really occurred: one or two were

MOST of the adventures recorded in this book really occurred; one or two were experiences of my own, the rest those of boys who were schoolmates of mine. Huck Finn is drawn from life; Tom Sawyer also, but not from an individual--he is a combination of the characteristics of three boys whom I knew, and therefore belongs to the composite order of architecture.

The odd superstitions touched upon were all prevalent among children and slaves in the West at the period of this story--that is to say, thirty or forty years ago.

Although my book is intended mainly for the entertainment of boys and girls, I hope it will not be shunned by men and women on that account, for part of my plan has been to try to pleasantly remind adults of what they once were themselves, and of how they felt and thought and talked, and what queer enterprises they sometimes engaged in.

and thought and talked, and what queer enterprises they sometimes engaged in.

what they once were themselves, and of how they felt and thought and talked, and what queer enterprises they sometimes engaged in.

Justified column

A diagram showing a central yellow rectangle labeled "Justified column Width=130". To its left is a green rectangle labeled "Justified Width" and to its right is a blue rectangle labeled "margin".

[illegible]

The diagram illustrates the concept of relative width in CSS. It shows a series of nested boxes. The outermost box is light blue and contains the text "Hello Gopher!". Inside it is a yellow box, which also contains "Hello Gopher!". Inside the yellow box is a white box, which contains "Hello Gopher!" and "Relative Width=10%". The white box is centered within the yellow box, and its width is indicated as 10% of the yellow box's width. The yellow box is centered within the blue box, and its width is indicated as 20% of the blue box's width.

Diagram illustrating relative width in CSS. Three overlapping boxes are shown, each containing the text "Hello Gopher!". The boxes are labeled "Relative Width=10%", "Relative Width=10%", and "Relative Width=10%", indicating that their widths are defined relative to a parent container.
